

Shared Luxury Ownership. (Get what you need.)

Share the ownership, not the headaches.

The Residence Club at White Point is perfect for those who value a luxurious second home – but would rather forego the year-round hassles and expenses associated with whole ownership. Your family gets 2,942 square feet of a luxurious, beautifully appointed waterfront home – when you really want it. Plus, you get the services and amenities of Nova Scotia's best known family resort right next door – like golf, tennis, dining and a white sand beach for walking off last night's scallops.

The Residence Club lets you spend only what you need to spend while still giving you all the advantages of second-home ownership – a place to call your own, equity, even the potential to lend it or rent it out if you choose to.

Did we mention you also get four weeks' peace of mind forever, from \$75,000?

Get what you need, by the sea in Nova Scotia.
